2021-2022

- St Anselm's Sr Sec School, Abu Road (Rajasthan)

91.2%

CBSE Class-X

2020-2021

- St Anselm's Sr Sec School, Abu Road (Rajasthan)

81.2%

PROJECTS

Daily News Digest-Python-Based News App

Tech Stack: Python

Desktop application for real-time news updates using GNews API

- Developed a modern, responsive GUI-based news reader using Python and Tkinter.
- Integrated GNews API to fetch and display latest news by category (World, Business, Technology, Sports, Health, etc.).
- Implemented scrollable layout with clickable headlines, images, and article previews.
- Ensured robust error handling for network/API failures to improve user experience.

MakemyTrip Clone

Tech Stack: HTML, CSS, JavaScript

- Recreated MakeMyTrip's UI and user flow with a multi-page responsive travel booking platform.
- Designed an interactive homepage with tabbed navigation (Flights, Hotels, Trains, etc.), styled form controls, and hover effects.
- Developed a flight search results page with fare filters (by stops, airlines, price, time slots), real-time price updates, and flight cards.
- Integrated fare details popups and a BOOK NOW CTA using modal components.
- Built a traveller booking form with dynamic inputs for user information, fare options, and booking summary with GST calculations.
- Completed the user journey with a confirmation page saying "Congratulations! Your booking is successful" and navigation back to home.

ADDITIONAL INFORMATION

- Tech Stack:** HTML, CSS, JAVASCRIPT, PYTHON, C++, Mysql, Oracle
- Tools:** Github, Git, Canva
- Languages:** English, Hindi
- Certifications:** Completed DBMS course by Scalerler
